Policy Overview:

- Trading Instruments:** Al Salam Investments LLC offers a range of trading instruments, categorized into FX majors, FX minors, metals (gold and silver), indices, and energies.
- Dynamic Leverage:** Leverage is tiered based on the number of lots traded within each instrument category. As clients open or close positions, their leverage will automatically adjust according to the relevant tier.
- Maximum Leverage:** The maximum allowable leverage corresponds to the tier in which the client's trading activity falls. Leverage levels are set to ensure responsible trading practices and risk management.

Al Salam Investments LLC is committed to providing a transparent and risk-conscious trading environment. This Dynamic Leverage Policy aims to protect both traders and the company by aligning leverage with trading activity. Traders are encouraged to review this policy and understand their leverage levels when trading different instruments.
